8th National

ADVANCED PRACTICE

Neonatal Nurses Conference

Celebrating and Advancing Neonatal Nursing Practice

April 27–30, 2011
Sheraton, Waikiki • Honolulu, Hawaii

Ends at 1:00 for Fun in the Sun!

Co-provided by
THE ACADEMY OF
NEONATAL NURSING
Celebrating and Advancing Neonatal Nursing Practice

Aloha and welcome to the 8th National Advanced Practice Neonatal Nurses Conference. Join colleagues at this year’s conference designed for neonatal nurse practitioners, clinical nurse specialists and experienced neonatal nurses. We are excited to offer a conference tailor-made for you. This is an outstanding program with a world-class faculty in the Land of Aloha.

The ideal conference to combine with a vacation, we have planned this program so that we conclude each day at approximately 1:00 PM. Come and experience Hawaii at this beachfront hotel. The fresh, floral air will energize you; the warm, tranquil waters will refresh you; the breathtaking, natural beauty will renew you. There’s no place on earth like Hawaii. Whether you’re a new visitor or a returning one, Hawaii offers distinct experiences to entice you. We warmly invite you to experience this conference, explore the islands, and discover the ideal conference and travel experience together. Mahalo.

Tuesday, April 26
3:00 PM–6:00 PM  Registration Open

Wednesday, April 27, Day 1
7:00 AM–1:30 PM  Registration Open
7:00 AM–8:00 AM  Networking Opportunity (Coffee, Tea, Bagels, Pastries)—Exhibits Open

General Sessions
8:00–8:15 AM  Welcome/Announcements
8:15–9:15 AM  To Feed or Not to Feed…What is the Evidence?
   Terry S. Johnson, APN, NNP-BC, MN
   The literature provides an abundance of articles, but few prospective, randomized, double-blind, controlled trials (PRDBCT), regarding feeding issues in the premature infant. Ms. Johnson discusses the current best evidence and best clinical practices regarding feeding and enteral nutrition in this vulnerable population.

9:15–10:15 AM  Cardiac Stabilization for Transport
   Laura Shumock, MN, NNP-BC
   Our speaker addresses cardiac conditions seen in the neonatal period. Medications and therapies used to stabilize the infant for transport to a surgical center are discussed.

10:15–11:15 AM  Exhibits Open—Refreshment Break (Coffee, Tea)
11:15 AM–12:15 PM  Noninvasive Ventilation
   Lois Chiu, MD
   Noninvasive ventilatory strategies in newborns include the use of nasal CPAP and high-flow nasal cannula. They are associated with fewer complications than mechanical ventilation if used in the right patient population. The indications for noninvasive ventilation are discussed during this presentation.

12:15–1:15 PM  Mechanisms of Cellular Injury
   Terry S. Johnson, APN, NNP-BC, MN
   All pathology has its origin at the cellular level and over time evolves to clinical presentation. Our speaker reviews the cellular concepts of hypoxic-ischemic-reperfusion injury, oxidative stress injury, molecular and cellular host-pathogen recognition in sepsis, systemic inflammatory response, and multiple organ dysfunction syndrome in the neonate.
Thursday, April 28, Day 2

7:00 AM–1:15 PM  Registration Open
7:00 AM–8:00 AM  Networking Opportunity
                  (Coffee, Tea, Bagels, Pastries)—Exhibits Open

Pharmacology Day

General Sessions
8:00–9:00 AM

201  Pharmacologic Management of Hypotension  
    Istvan Seri, MD, PhD, HonD  
    Rx = .75

Dr. Seri discusses novel aspects of developmental cardiovascular physiology during transition to extrauterine life. He discusses the pathophysiology and phases of neonatal hypotension and the different forms of neonatal shock later in the postnatal period in preterm and term neonates. With the pathophysiology in place, our speaker explains the mechanisms of action, clinical indications, and doses of vasopressors-inotropes (dopamine, epinephrine norepinephrine), inotropes (dobutamine) and lusitropes (milrinone) as well as steroids. Finally, the evidence of the risks and short- and long-term benefits of these vasoactive agents is discussed.

9:00–10:00 AM

202  PDA Management  
    Istvan Seri, MD, PhD, HonD  
    Rx = .5

The physiology of ductal closure and the pathophysiology and hemodynamic impact of ductal patency are addressed in this valuable session. Current evidence for pharmacologic and surgical treatment vs conservative medical management of preterm neonates with a hemodynamically significant PDA is discussed. Data on the mechanisms of action, dosing, efficacy, and side effects of indomethacin and ibuprofen are presented.

10:00–11:00 AM  Exhibits Open—Refreshment Break (Coffee, Tea)
11:00 AM–12:00 PM

203  The Evolving Ecology Causing Sepsis in the Neonate  
    Terry S. Johnson, APN, NNP-BC, MN  
    Rx = 1

The organisms responsible for sepsis in neonates continue to evolve. In this presentation, Ms. Johnson discusses the epidemiology of current and emerging pathogens, diagnostic tools, novel therapeutic strategies, and pharmacologic intervention for infants on the sepsis continuum.

12:00–1:00 PM

204  What Drugs Should I Have Memorized? The Neonatal Pharmacology of Emergencies: Resuscitation, Intubation, and Acute Cardiac Events  
    Kenneth Nakamura, MD  
    Rx = 1

Dr. Nakamura discusses the pharmacology of medications used in neonatal resuscitation, maternal medications that can affect neonatal resuscitation, sedation for intubation, and emergency pharmacologic treatment of common cardiac arrhythmias.

Friday, April 29, Day 3

7:00 AM–1:15 PM  Registration Open
7:00 AM–8:00 AM  Global Good Morning Networking Opportunity (Coffee, Tea, Bagels, Pastries)—Exhibits Open

General Sessions
8:00–9:00 AM

301  Evaluating the Effectiveness of Golden Hour Care: The One Hour Apgar Score  
    Jay P. Goldsmith, MD

The first hour of life is the most important hour of a very low birth weight infant’s care. It requires the scripted response of a well-trained and coordinated team to optimize the transition from the intrauterine environment. Dr. Goldsmith discusses the “Golden Hour” and addresses a newly developed process measure for evaluating the effectiveness of care called the ”1 Hour Apgar Score.”
9:00–10:00 AM

302 Ethical Issues at the Limits of Viability
Jay P. Goldsmith, MD

The limits of viability continue to be pushed by various new technologies. Reports of infant survival at 22–25 weeks gestational age have come from several sources. Dr. Goldsmith describes the process of ethical decision making and discusses the new International Liaison Committee on Resuscitation (ILCOR) guidelines for the initiation or withholding of care for infants at the margins of viability.

10:00–11:00 AM Exhibits Open—Refreshment Break (Coffee, Tea)

A Workshops (Concurrent Sessions)

11:00 AM–12:00 PM

311 Care of the Late Preterm Infant
Debbie Fraser, MN, RNC-NIC

Given the increasing rate of late preterm births in North America, we are challenged to provide appropriate care for these infants in a timely and cost-effective manner. In this session, our speaker examines the most common problems experienced by the late preterm infant and provides strategies to address these issues.

312 Music, Massage, and the Neonate
Rosanne Harrigan, EdD, APRN-Rx
Terry Shantani, MD, MPH, JD

Our speakers discuss the evidence for the efficacy of music and massage as adjunctive therapies focused on improving neonatal outcomes.

313 Electronic Charting/Electronic Medical Records:
Everyday Gift or the Bane of Our Existence?
Tracy Karp, RNC, MS, NNP-BC

Most NNPs either use electronic charting or a fully integrated medical record. Does it meet your “meaningful use” criteria? Join this presentation and group discussion about a technology that affects our daily professional lives.

B Workshops (Concurrent Sessions)

12:05–1:05 PM

321 A Parent’s Perspective
Dana Ing, MSN, NNP-BC, APRN

Nothing can change your perspective on something as much as personal experience. Ms. Ing was once a NICU staff nurse and is now an NNP, realized that everyone in the NICU thought she knew and could do everything. What they forgot, and not intentionally, was that she was now the mother of two NICU babies whose main objective was to protect and do what was best for them. She will give you a new perspective and valuable pointers for working with NICU families in this workshop.

322 Quality Improvement in Respiratory Care
Jay P. Goldsmith, MD

Despite various improvements in ventilator support for VLBW infants, chronic lung disease continues to be a major morbidity in this weight group. The wide variance of this complication among institutions (5–65% in the Vermont Oxford Network [VON]) has prompted the concept that QI programs can decrease the incidence of this morbidity. Dr. Goldsmith discusses a QI program used in the VON QI Collaborative that has helped decrease the incidence of chronic lung disease in participating institutions by greater than 20 percent over a two year period.

323 Neonatal Millionaire
Ellen Tappero, DNP, RN, NNP-BC

Come and join us for an exciting game featuring a potpourri of neonatal topics. Laugh and learn your way through the recognition, identification, and effects of neonatal diseases and syndromes. The latest research as it relates to the different neonatal topics is presented. Discover the depth of your neonatal knowledge base and see how you score against other neonatal nurses.

The Academy of Neonatal Nursing™ gratefully acknowledges the continuing support of

Abbott Nutrition
MedImmune
Saturday, April 30, Day 4

General Sessions
6:45 AM–1:00 PM  Registration Open
6:45–7:45 AM

401  Breakfast Symposium
   NNP Workplace and Credentialing Issues
   Tracy Karp, RNC, MS, NNP-BC
   Ellen Tappero, DNP, RN, NNP-BC
   Join two NNP program leaders from two different practice environments to discuss current workplace issues.
   Topics will be, in part, audience-generated. Subjects addressed include, but are not limited to: staffing, financial support, workforce competencies, and NNP/patient ratios. Share your practice model and learn from others.

8:00–9:00 AM

402  End-of-Life Care for Those with Predictions of Poor Outcomes
    Daniel Murai, MD
    Modern neonatal care has been miraculous in terms of survival of infants. However, there are still occasions when even with our best therapies, our patients will have poor outcomes. Dr. Murai discusses the interaction between palliative care consultation, information sharing with parents, and futile therapy policies.

9:00–10:00 AM

403  Substance Use and Abuse: Perinatal/Neonatal Management
    COL Mark Thompson, MD
    Rx = .8
    Dr. Thompson discusses various aspects of maternal drug use and abuse, including various categories of pharmaceuticals, and their effects on the fetus and neonate. Discussion will focus on neonatal management strategies based on a maternal history of substance use.

10:00–10:30 AM  Refreshment Break—Coffee and Tea

10:30–11:30 AM

404  Thermoregulation: What You Thought You Knew
    Pamela Almeida, MS, NNP-BC
    Ms. Almeida’s focus in this session is the current practices used to provide a neutral thermal environment for both preterm and term infants. She discusses thermoregulation principles, current practices, and new ways both warm and cold can be used to benefit the neonate.

11:30 AM–12:30 PM

405  A World View of Neonatal Care
    COL Mark Thompson, MD
    In the closing session, Dr. Thompson discusses neonatal practice and care throughout the developed and developing world. Particular focus is on delivery of neonatal care in the Third World and how multiple governmental and non-governmental organizations are playing a role in raising the standard of care in those areas.

12:30–1:00 PM  Closing and Evaluations

Topics and speakers are subject to change.
Statement of Purpose
Educational sessions and posters exhibited at this conference are meant to provide the advanced practice neonatal nurse and the experienced neonatal staff nurse with current information on evidence-based practice. By addressing clinical and research topics, our hope is to engage neonatal health care providers in a dialogue that will support best practices and improve neonatal and infant health care.

Continuing Education
The main conference provides 17 contact hours. Additional contact hours are available for poster sessions.

Neonatal Network is an approved continuing education provider by the Florida Board of Registered Nursing, Provider FBN 3218, content code 2505; Iowa Board of Nursing, Provider #189; and Alabama Board of Nursing, Provider #ABNP0169. This conference provides 17 contact hours.

The Provider, Neonatal Network, approved by the California Board of Registered Nursing, Provider #CEP 6261, for 17 contact hours.

This conference is coprovided by the Academy of Neonatal Nursing and Anthony J. Jannetti, Inc.

Anthony J. Jannetti is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation (ANCC-COA).

Registration Fees
See fee schedule on the registration form. Payment of the registration fee must accompany the registration form.

Cancellation and Refunds
• To receive a refund, cancellation of your conference registration must be received in writing at the conference management firm, A.J. Jannetti, on or before April 13, 2011.
• A $50 administrative fee is applied to all registration refunds.
• Send refund requests to: A.J. Jannetti, East Holly Avenue/Box 56, Pitman, NJ 08071.
• Refunds will be processed within 2 weeks after the conference.
• Memberships are nonrefundable.
• If it becomes necessary to cancel the 8th National Advanced Practice Neonatal Nurses Conference for any reason, including labor strikes or acts of God, liability shall be limited to a full refund of registration fees.
• Notification of a cancelled conference will be mailed at least 15 days prior to the first day of the conference, if possible.

Parking
Valet parking is available at the hotel for a rate of $33 per night per vehicle and self-park is available for $25 per night per vehicle. Both have in and out privileges. Parking prices are current at the time of printing and are subject to change.

Hotel Information
On the best stretch of legendary Waikiki beach sits the towering Sheraton Waikiki—a true medium of endless energy and electric excitement. Trendy, sophisticated, and completely refreshed, this resort ushers in a new level of comfort, style, and panache to the Waikiki scene, promising an inspired vacation for one and all.

The resort is known for its breathtaking ocean-front views offered from 80 percent of the 1,636 newly transformed guest rooms and suites, a first-of-its-kind newly opened “Superpool,” and award-winning dining venues. The 8th National Advanced Practice Neonatal Nurses Conference room rate is $189 single/double City/Mountain view rooms or $209 single/double Ocean view rooms, plus 13.96% tax. To receive the conference rate, you can make your reservation by choosing one of the following: Call Reservations at 808-922-4422 and refer to the National Advanced Practice Neonatal Nurses Conference, or make online reservations directly through www.academyonline.org. Reservations must be made on or before March 25, 2011. Reservations made after this date will be subject to space and rate availability.

Dining and Entertainment
From casual oceanfront lunches to fine dining 30 stories above the glittering lights of Waikiki, you will never hunger for options at the Sheraton Waikiki.

The newest hotspot for tapas, tastings, and libations in Honolulu is RumFire. Located in the heart of Waikiki, RumFire offers a dining experience like no other on Oahu with the largest selection of vintage rum in the United States, an expansive menu selection, pre-embargo Cuban cigars, and dramatic fire pits. RumFire serves lunch and dinner daily. Crowning the resort and embracing Oahu’s most spectacular views, Twist at Hanohano takes fine dining to all new heights—followed by nightly dancing among the stars. Ingredients is Honolulu’s newest innovation in casual dining. Their made-to-order gourmet meals and fresh, healthy ingredients cater to guests on-the-go. For a more relaxed pace, enjoy traditional island melodies as Hawaii’s finest entertainers play every night at RumFire’s Patio.

Peet’s Coffee & Tea kiosk in the Sheraton Waikiki Hotel, with its existing shop near the Infinity Pool, offers delicious gourmet coffee and coffee products, quick service sandwiches, salads and breakfast items.

Temperature
The weather should be wonderful in Hawaii in April! Usual temperatures reach a high of about 84° during the day, with a low at night of about 70°.

Airport/Transportation
Honolulu International Airport is approximately 30 minutes from the hotel.

Taxi service from the airport is approximately $40 one way, or you could catch the Roberts Hawaii airport shuttle for $9 one way per person. Both can be boarded near the baggage claim area. Prices are subject to change.

Airline Transportation
American Airlines has been contracted as the official airline for the 8th National Advanced Practice Neonatal Nurses Conference. To obtain the discounted fares offered through American Airlines, make your reservation online at www.aa.com and be sure to use Promotion Code 3341AY.

Car Rental
Avis has been chosen as the official car rental agency for the 8th National Advanced Practice Neonatal Nurses Conference. Rates will be in effect for rental between April 20 and May 7, 2011, and will include unlimited free mileage. To make a reservation, call Avis directly at 800-331-1600 or make reservations online directly through www.academyonline.org. To receive the discounted rates please refer to the Avis Worldwide Discount (AWD) number J907463.

Conference Hotel
Sheraton, Waikiki
2255 Kalakaua Avenue, Honolulu, HI 96815
Reservations: 808-922-4422 or online at www.academyonline.org
Refer to National Advanced Practice Neonatal Nurses Conference
All reservations require a one night deposit (including 13.96% tax) to guarantee the reservation. Payment can be made by telephone, with your major credit card, or by mailing a check or money order covering the first night’s stay.
